### **DETAILED ACTION**

1. The following is an examiner's statement of reasons for allowance: the claimed subject matter is free of the prior art. WO 97/41824 ('824) discloses kringle 5 peptides, see Examples 5-7, that coincide with instant amino acid sequences of SEQ ID NOs: 8, 13 and 15. Additionally, '824 teaches "activated ester derivative" as "...N-hydroxysuccinimide derived esters..."; however, this is the only mention of the ester derivative in the disclosure of '824 and the ester derivative does not appear to have any relationship to the sequences mentioned above or in the disclosure of '824. Therefore, the '824 reference does not anticipate or render obvious the instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Information Disclosure Statement***

2. The references cited in the Search Report filed 09 March 2006 have been considered.

#### ***Conclusion***

3. Claims 1, 3-6, 10-12 and 19-21 are allowed.
